Stress Management Made Simple

Simple formula for everyday stress management (IEMM)

01

Identify Stressors

Write a list of everything that is causing you stress. Nothing too big or small!

02

Eliminate

Get rid of any stressors that are not necessities.

03

Minimize

Brainstorm ways to decrease identified stressors. (i.e Outsource task, dedicate days/times for household chores)

04

Manage

Brainstorm ways to manage stressors. (i.e Budget, selfcare, mindfulness & exercise)
